

The Morphic Field

Including practical examples and the story of the 100 monkey

Do you know if and how you get influenced by a morphic field and how YOU - *contribute* to it?

Definition:

A Morphic Field is an interconnected, telepathic energy field that operates by resonance on a subconscious level. Each Morphic Field has a specific content and intention that is shared by a considerable number of members. Anyone with the same content/intention can tap into it, resonate with it and can possibly get overwhelmed by it. This field is alive.

The 100th Monkey, by Ken Keyes Jr.

You find it at the end of this text - [here](#)

Note:

While morphic fields can be seen as ‘a basic mechanism of creation’ – the self organisation of fields into higher and higher complexities – we concentrate here on those morphic fields which influence our subconscious thoughts, emotions and body-sensations. They all contain ‘fear’.

Let's first look at RESONANCE on a non-telepathic level:

Have you ever been in a situation where someone close to you was shocked and then you yourself immediately got shocked too – realizing right away that there was nothing to be afraid of and you only reacted to the 'fear-wave' of the other person? (Laurel and Hardy played this often in their movies).

This we call 'going into resonance'.

Same thing with yawning and laughing.

And also the same with a sad person that makes you sad too.... (Different emotions tend to balance themselves out).

Now lets look at this:

Have you ever 'played a role' – and you performed so well – using surprising words and arguments – that you suddenly asked yourself: "Why do I know all this? – How can I play this role so perfectly? Where does this all come from?"

Let's say you are straight and play a gay. You can probably do it so well it would shock your mother. Where does this ability come from? Is it all in your 'brain' ? Really ?

It is one thing to imitate a mood or attitude (a frequency) – but quite a different thing to come up with specific phrases and content.

Or:

Did you ever feel - when you were in a heated discussion - that

you did bring up arguments which were in fact ‘not yours’ – but very clever? And you were stunned - where did they come from? It didn’t really feel that you just created them - more like using pre-existing patterns which suddenly emerged from ‘nowhere’ ...

Or:

Let’s look at something else: sexual fantasies.

Did you ever have a sexual arousal having fantasies of sexual practices or rituals coming up in your imagination of which you felt “hey I think they are doing this somewhere, there must be a culture or a group of people where this happened in the past or where this is even done today” – but you had never heard of it before?

And then there are the conspiracy theories.....

Hm.....

Or:

Have you ever be in a group of people – which you didn’t know – but nevertheless you knew exactly how to behave and what you could do and not do in this specific group of people?

Or: -

Have you ever been in a heated argument where you were sooo sure to be right, because ‘everybody knows....’, ‘everybody would agree’?

An explanation to all these phenomena might be the

MORPHIC FIELDS

While your own subconscious does feed into your conscious - if activated - it also radiates outside and RESONATES with the field of activated subconscious content 'around' you – IF this content is on the exact same 'wavelength'.

This is called the resonance of the Morphic Field.

It happens on a telepathic level.

How is this possible without physical contact?

Because on the thought-level there is no matter/energy/space and time – and therefore no distance and no borders.

(Technically there is no 'inside' and 'outside' ;-)

Note that this will only work, when a certain critical number of individual subconsciousness's have stored and activated the same content. Only then does it count as a subconscious 'REALITY' that can be accessed.

This co-relates with the laws of the 'spiritual mechanics' which state, ***that 'REALITY' is that which a majority of a group agrees to. Reality is NOT truth.***

And it shows that there is access to a level of a non-personal subconscious in all of us. The fear of mice or spiders etc. is most likely part of this level of the subconscious.

(Such things can be released too 😊)

Some Examples of Morphic Fields:

“Women are bad drivers.” This is a ‘morphic field reality’ created by ‘some men’ – and whether true or not – it can nearly not be erased anymore, because it is upheld and fed by a significant number of men.

Note: A morphic field is always an agreement AGAINST something.

It is not a loving ‘come-together’ *for* something.

If it would be an agreement *for* something it would dissolve pretty fast – as it would be based on acceptance of what is (truth). Such energy would dis-create boundaries and so the morphic field would cease to exist as an ‘entity’.

Whenever the MF is named as ‘pro’ something it is in fact against something.

Examples:

‘Pro Life’ = against abortion.

‘Pro Arms’ is against anybody who dares to bother me.

‘Religion’ is against the sinners and non-believers. Etc. etc.

Even ‘Pro Animals’ is not only about the love for animals, but gets its energy from fighting against the cruelty (etc.) to animals.

At the back of a MF are traumatic incidents which solidify the reality of the common enemy (Pictures of animal abuse. Jesus ‘on the Cross for our sins’ to make us feel guilty, etc.).

How can you get affected by a Morphic Field ?

You can only be affected by a morphic field and get under its influence if you have a 'Stuck Energy Cloud' hanging around you that contains subconscious energies similar to those in a specific morphic field.

Only then are you in danger of being affected.

Being affected by a morphic field means that your own wrong subconscious emotions and judgements are enforced and multiplied by it – possibly in a VERY strong way.

And of course what happens then, is – that you sustain the existence of the morphic field by feeding back your own energy into it.

The Minefield: Morphic-Field Topics

While already the personal subconscious of people can be like a minefield, and you have to be careful what you talk about – it is even worse – much worse – when these topics are tapping into to a morphic field reality.

And there are morphic fields which are so powerful – that you can nearly not bring them up in any conversation - even in a totally neutral way – and even if you have the same view as the other person.

It is quite dangerous to even mention these topics, because the fact alone that you want to mention them could mean that you want to discuss them because you have perhaps your own view

on them – in contradiction to the morphic field reality of your conversation-partner – and this ‘God forbid’.

As soon as such topics are mentioned, they can open up a gate and trigger a flood of charge out of the connected morphic field.

Can you guess some of these topics?

Religion, Politics, Abortion, Paedophilia, Death Penalty, Arm Control

Some morphic fields are especially active in waves – we call them ‘memes’.

Recently memes were: ‘Black Lives Matter’ and new: ‘Child Trafficking’.

Whether there is a real fact behind these topics or not has nothing to do with how this technically works:

It is ***a re-stimulation of an individual’s subconscious that goes then in resonance with a morphic field reality with the same or similar content.***

This resonance can be so powerful that it totally sets aside any logical thinking in this matter.

Stunning ‘achievements’ of morphic fields

The ‘**Flat Earth**’ movement is one of the most stunning example what a morphic field can achieve. How is this possible?

As mentioned before: REALITY is that what the majority of a group agrees upon. So when an individual is confronted with a whole group with a firm belief – no matter how crazy it is – this can have an impact upon him – if he is not in a too good shape mentally and too easy overwhelmed by his subconscious.

Another stunning example is how a person with ongoing lying, corruption, extreme egoism, totally missing empathy and even acts of treason is tolerated as a president. This is only possible through the creation of a morphic field by his followers, setting him up as a hero and attacking everybody who is against him. The creators of this morphic field are those who do not want to lose their power and job. (There will be some waking up, when this morphic field will collapse hopefully sooner than later – lol).

(Btw: if you consider this individual to be a 'Light Worker' as some of the 'Ashtar Group' do – you might consider to be in the wrong group here. Not because I would not like to have you here – but because of your significant misunderstandings in regard to releasing and self-development). 😊

To change something on this planet – we do not only have to clean out the personal subconscious – we need to clean out some morphic fields too - which is done by cleaning out A LOT of personal subconscious's. 😊

The 100th Monkey

A story about social change

By Ken Keyes Jr.

The Japanese monkey, *Macaca Fuscata*, had been observed in the wild for a period of over 30 years.

In 1952, on the island of Koshima, scientists were providing monkeys with sweet potatoes dropped in the sand. The monkey liked the taste of the raw sweet potatoes, but they found the dirt unpleasant.

An 18-month-old female named Imo found she could solve the problem by washing the potatoes in a nearby stream.

She taught this trick to her mother. Her playmates also learned this new way and they taught their mothers too.

This cultural innovation was gradually picked up by various monkeys before the eyes of the scientists. Between 1952 and 1958 all the young monkeys learned to wash the sandy sweet potatoes to make them more palatable. Only the adults who imitated their children learned this social improvement. Other adults kept eating the dirty sweet potatoes.

Then something startling took place. In the autumn of 1958, a certain number of Koshima monkeys were washing sweet potatoes -- the exact number is not known. Let us suppose that when the sun rose one morning there were 99 monkeys on Koshima Island who had learned to wash their sweet potatoes.

Let's further suppose that later that morning, the hundredth monkey learned to wash potatoes.

THEN IT HAPPENED!

By that evening almost everyone in the tribe was washing sweet potatoes before eating them. The added energy of this hundredth monkey somehow created an ideological breakthrough!

But notice: A most surprising thing observed by these scientists was that the habit of washing sweet potatoes then jumped over the sea...Colonies of monkeys on other islands and the mainland troop of monkeys at Takasakiyama began washing their sweet potatoes.

Thus, when a certain critical number achieves an awareness, this new awareness may be communicated from mind to mind.

Although the exact number may vary, this Hundredth Monkey Phenomenon means that when only a limited number of people know of a new way, it may remain the conscious property of these people.

But there is a point at which if only one more person tunes-in to a new awareness, a field is strengthened so that this awareness is picked up by almost everyone!

Whether this story is fully true or not – it demonstrates exactly the findings of **Rupert Sheldrake**.

Rupert Sheldrake, PhD, is a biologist and author best known for his hypothesis of morphic resonance.
